

Testing comes out of the lab and into the real world — the results are clear.

Independent third-party testing confirmed that Pyure's technology prevented nicotine accumulation, removed the airborne contaminants that people breathed, and cleaned the surfaces they touched, from the ATM keypads to the bathroom door handles.

In partnership with:

Transforming shared spaces into healthy places.

Smoking in facility — without the smell or haze.

Nicotine, a volatile organic compound (VOC), commonly found in secondhand smoke in air and on surfaces, was not detected in either testing.

After several weeks of smoking in the casino's big gaming room, the second testing day showed no detection of nicotine.

The test results suggest the efficacy of Pyure in breaking down the VOC nicotine and reducing the exposure of this harmful chemical to the casino's guests and staff.

“ When the Pyure system was enabled here at Newport, ...(I spent) a weekend walking around the smoking area and then coming home to see if my wife could detect it, and she could not... As a matter of fact, she was so excited about the system we bought a whole house system for ourselves...”

CHIP BACH, GENERAL MANAGER,
NEWPORT RACING & GAMING

Multiple tests in the casino found a Nicotine (VOC) reading of

↓ 0%

At Newport Gaming's site, Pyure Dynamic Protection[®] significantly reduced air and surface bacteria, mold and nicotine in multiple casino areas.

“The tests came back exactly as Pyure said they would. Our air quality had improved, even with our outdoor air quality being worse the second (day of testing)...”

PYURE TREATS THE AIR YOU BREATHE

Airborne bacteria, viruses and mold spores surround us, carried on indoor air currents. Once Pyure is activated, hydroxyls are made and natural cleansers diffuse through the space purifying the air and protecting you, your staff and your customers.

Decrease in airborne bacteria where the money is counted of

↓ 79%

Small games room saw a reduction of airborne bacteria of over

↓ 83%

Decrease in airborne mold in the smaller games room of

↓ 87%

PYURE TREATS THE SURFACE YOU TOUCH

Pyure's natural cleansers land on surfaces such as bathroom handles, and treat surface-bound bacteria, mold, viruses – before they are touched.

ATM in small
games room saw a
reduction of surface
bacteria of over
